Items Added to and Taken From

Free List.

STILL, FOSTERING HOME INDUSTRIES.

Various Improvements in Aid

of Domestic Manufactures.

THE DUTY ON SUGAR.

Changed to Aid Retention of Direct

Importation of Drawbacks.

Refund of Duties for Deterioration and

Damage.

IMPORTANT FOR BUSINESS MEN.

OTAWA, Feb. 29.—The following resolu-

tions were submitted to the House to-

day by Sir Leonard Tilley, making altera-

tions in the existing tariff.

Resolved, That it is expedient to provide

that the following articles be added to the

list of goods which may be entered free of

duty when imported into Canada:

ADDITIONS TO FREE LIST.

Bolting cloths, not made up; boracic

acid, curvas, jute, canvas and less than 28

inches wide, when imported by manu-

facturers of floor cloth for use in their

factories; cherry leaf webbing composed

of grease and grease scum, indigo, paste and

extract of manganese, oxide of potash,

German mineral, sodium sulphate of 1

and 2, for use in straw-cutting, cut to

shape for iron or composite ships or

vessels.

REDUCTIONS FROM FREE LIST.

To and to repeal the following items on

free list, viz:—Colchic, dry oxide of

iron, fish, vegetable for manufacturing

purposes, fish plates, steel, and all items

or words contrary to or inconsistent with

the foregoing provisions.

SHAW'S REPORT.

Resolved, That it is expedient to provide

that the following articles shall be subject to

and be charged with the rates of duty

applicable to each respectively, from and

after the passage of this resolution:—Acid,

specific duty of 25c. per imperial

gallon; sulphur, 25c. per imperial

cask; 20c. per imperial cask; 20c. per

## Daily Intelligencer.

ENGLAND.

A statue to Sir Francis Drake was lately

unveiled at Plymouth, Devon.

There are about 2,700 births and about

1,700 deaths per week in London.

In Great Britain in 1883, cattle to the

number of 461,457 were attacked with foot

and mouth disease.

The largest school in the world is probably

the Jews Free School, in Spitalfields,

London. It has a daily attendance of

over 2,500 pupils.

The single square mile of the City of

London proper keeps pace with the

growth of the whole metropolis at the rate of

128 square miles. It has been about one

seventh of the value of the whole, and

though the metropolis has grown rapidly

late the latest statistics show that the

city still keeps its proportionate value.

Of late years there has been in England

a pronounced resistance against any at-

tempt to enclose open spaces, more espe-

cially in the case of Hampstead Heath,

where the late Lord of the Manor was

most desirous of building; and now there

is a scheme proposed by the Society for

the Promotion of Open Spaces to acquire

as a national park, or at any rate metropoli-

tan, several hundred acres of

heath, pasture land and beech woods

between Hampstead and Highgate, and

preserve them forever as open spaces for

the enjoyment of the public.

Near Brighton, the other day, a large

quantity of wreckage was washed ashore.

Among other articles were several

thirty-gallon casks of wine and several

casks of brandy. A large number of

persons were seen to be drinking

from the casks. An extraordinary

number of drunkenness followed, and

many persons were found lying

drunk after five o'clock on the next

morning, and had not several

persons been seen to be drinking

from the casks, it is probable that

the wreckage would have been

seen to be drinking from the casks.

The British vessels launched during the

year 1883 represent a capital of at least

£19,000,000, and in their actual

construction some 62,000 men have been

employed. The cost of the vessels

launched in 1883 was £19,000,000.

The cost of the vessels launched in

1882 was £18,000,000.

The cost of the vessels launched in

1881 was £17,000,000.

The cost of the vessels launched in

1880 was £16,000,000.

The cost of the vessels launched in

## 9 Cases of New Goods Just Opened at

SCOTLAND.

From 60 to 70 per cent. of the salmon at

present spawning in the Tweed are

afflicted with the fungus disease.

There are in all ninety-six deer-farms

in Scotland; they are comprised in an area

a little larger than the county of Ross.

There are said to be 1,070 total stags

among the Presbyterian ministers of

Scotland—namely 470 in the Free Church,

200 in the Established, and 296 in the

United.

The death of the Rev. William Parlane,

of the United Presbyterian Church at

Tranent, is announced. He was believed

to be the oldest Presbyterian minister in

Scotland. He was 89 years of age.

Sir Alexander Matheson, who has sat in

Parliament for thirty-seven years—first for

the Inverness District of Burgis, and since

1868 for the counties of Ross and Cromarty

—has announced his intention to retire at

the close of the present Parliament.

The death of an ancient man in his seventy-

sixth year of Emmeria Professor Balfour.

For several years Dr. Balfour occupied the

Chair of Botany in Glasgow University and

was appointed in 1845 to a similar position

at Edinburgh, from which position

Feeding Honey Back to Bee.

Eds. Country Gentleman.

As honey bees are for twice as much

as extracted honey, many attempts have

been made to transform the latter into the

form of feeding back to the bees at the

close of the honey harvest. Except in

very few instances, these experiments have

resulted in pecuniary failure. Of course

the bees do not carry the honey that is

fed to them out of the hive, but what they

do with it is often a puzzle. If there are

many empty combs in the brood nest,

of course the honey is deposited in them,

but after they are filled, if given out

at the commencement, the bees will

often build little combs here and there,

and lodge out the old combs in every

available spot; of course the honey so

used is not a total loss, but the object

is not gained. The feeding of honey

induces the rearing of large quantities

of brood, and the honey fed is very

rapidly consumed. If the locality affords

a fall honey harvest, or if the apiarist

can sell his bees at a remunerative

price, the feeding of honey is a profitable

business. But the primary object of

feeding the honey is not a merely

thwarted.

Sometimes after bees have been fed

for several weeks, they acquire a

provident character, and simply "live off

the feeder without storing honey very

readily in the sections. This is due to

the difference in colonies, some appearing to

comprehend what is expected of them, and

arranging the work in a satisfactory, pre-

dictable manner. A well known and very

successful bee-keeper, Mr. G. M. Doolittle,

has several times tried "feeding back," and

has never succeeded in securing much more

than one pound of comb honey as the re-

sult of feeding three pounds of extracted

honey. Mr. E. A. Thomas, another noted

apiarist, has secured two pounds of

comb honey from the feeding of three

pounds of extracted honey. At the last

convention of the Michigan Bee-keepers,

Mr. D. A. Jones reported that a pound

of honey was fed to one colony and 44

## GLASGOW WAREHOUSE.

Belleville, March, 1884.

## Daily Intelligencer.

BELLEVILLE, FRIDAY, MAR. 7.

## MERE MENTION.

MAFIE MAKING implements are receiving attention.

Next door the blinds. Another troupe of public singers is on the warpath.

The police station blotter this morning was as clean as the surface of the curling rink.

RECTOR VANDYKE, Evangelist, at the Bath of Hall on Sunday at 8 o'clock, and each night next week at 8 o'clock. All welcome.

Several persons who sold potatoes on the market and did not deliver them after receiving pay for the same, will appear in the Police Court tomorrow.

The Synod of Toronto and Kingston of the Presbyterian Church will (D.V.) hold its annual meeting in St. Andrew's Church, on Tuesday evening, April 8th.

Answers that passed the marine examinations at Kingston were R. S. H. Phillips, A. Eccles, C. W. Farrington, and E. M. Murray, all of this city's masters, and P. Foley, W. J. Watkins and Jas. Eccles &amp; mates.

The frame structure adjoining the Elzaka House is likely to tumble into the river, as it is gradually showing that kind of a weakness. The sidewalk has also settled and should receive the attention of the Street Sweeper.

Axe. It was reported a novelty yesterday in the way of hen fruit. It was a egg which weighed a quarter of a pound, within which was another full shelled. Mr. Harold is going to set the hen that laid that in business for herself.

Is the Police Court this morning. Murdoch McRae appeared on remand, charged with being an itinerant. He asserted that he was in his 81st year and that he was the father of 14 children, all girls, and that he was as smart as the average man of 50, and his appearance and actions indicated it. He was told to leave town.

Dr. Tracy informs us that he, as a member of the Board of Health, has been examining the ice which has been drawn from the bay for storage. He stated that all the ice, which is being stored for public use, is good, the only bad ice drawn being some for use for refrigerating purposes and some which has gone to the country for clover factory use.

HARRIS and WALTON are now manufacturing a very handsome mantle piece for Mr. J. P. C. Phillips, of this city. The carving, which was done by Mr. Thomas Griffin, is as a whole and elaborate, and is as fine a specimen of the carver's art as one could wish to see. As a whole, the work is as fine a specimen of its class as has been manufactured here. The same firm is also making a number of "confessionals" for St. Mary's Cathedral, Kingston. They are built of ash and are adorned with carvings in butternut and black walnut adornments.

## Weather Probabilities.

TORONTO, March 7.—Lakes, windy, mostly north and northeast, fair to cloudy weather, preceded by snow in some localities, not much change in temperature.

## The Army.

Six conversions were recorded last night. Capt. Wm. of Toronto is expected to be present at the meeting tonight.

## Curling.

Messrs. Jos. Clarke, W. Sumner, J. H. Stirling, T. Duncan, D. M. Waters, W. H. Biggar, E. Force and W. H. Campbell will constitute the two teams who will contest for the possession of the Champlain medal with the Perth Club, at Brockville, this evening.

Prompt relief in skin diseases, dandruff, itching, eczema, psoriasis, in the side, chest, guaranteed to those using Carter's Little Liver Pills. One will be cured.

They call it "The Wonderful Cure." It is the only cure for the skin diseases, dandruff, itching, eczema, psoriasis, in the side, chest, guaranteed to those using Carter's Little Liver Pills. One will be cured.

## The Ferry.

An informal talk over the question of more efficient ferry accommodation between Belleville and this city, held at the Queen's Hotel on Wednesday, brought a number of Prince Edward people and several merchants of Belleville. During the afternoon, and the day following, the ferry route was adopted by the people of Amherstburg would bear a portion of the expense. Nothing was done.

Captain Jellicoe's proposition will be considered tonight.

## PERSONAL.

Dr. RYERSON'S visit to this city has been an avowedly profitable one. He is in the city, Mr. A. McGINNIS, D. G. M., accompanied by a number of brethren from Meville, G. R. C., paid a friendly visit to Myrtle Lodge, Roslin, last night.

Mr. GEORGE L. THOMAS returned from New Orleans last night.

Mr. R. C. CLARK is expected in Hamilton for a few days.

GEO. E. HENDERSON, Esq., C. C. has been appointed by the Attorney-General to conduct the Crown business at the Kingston and Whistler Assizes on the 10th and 11th inst. respectively.

## Local Legal.

At Toronto on the 5th: NOLAN vs. CLARKES—G. D. Dickson, Q.C., obtained an order for the seizure of the defendant's car.

KEARNEY vs. BICKFORD—G. D. Dickson, Q.C., obtained an order to examine two defendants at Montreal and one defendant at Toronto.

RUSSELL vs. CAMPBELL—G. D. Dickson, Q.C., for plaintiff. LEAH, G. C., for defendant. Judgment granted for possession. Defendant to pay costs, except as to matters abandoned by plaintiff.

CARL vs. COCKLEY—Dickson, Q. C., for plaintiff. CLUTE, (Belleville) for defendant. Appeal from Master's report and hearing of case on further directions. Reserved.

## A Serious Charge.

Chief Constable Hinde, of Trenton, came here yesterday afternoon having in custody a man named James Barber, who he reported on the Ontario Review, as being a mix of St. John's, Ontario, and a jury note some prize.

KEARNEY vs. BICKFORD—G. D. Dickson, Q.C., obtained an order to examine two defendants at Montreal and one defendant at Toronto.

RUSSELL vs. CAMPBELL—G. D. Dickson, Q.C., for plaintiff. LEAH, G. C., for defendant. Judgment granted for possession. Defendant to pay costs, except as to matters abandoned by plaintiff.

CARL vs. COCKLEY—Dickson, Q. C., for plaintiff. CLUTE, (Belleville) for defendant. Appeal from Master's report and hearing of case on further directions. Reserved.

A Serious Charge.

Chief Constable Hinde, of Trenton, came here yesterday afternoon having in custody a man named James Barber, who he reported on the Ontario Review, as being a mix of St. John's, Ontario, and a jury note some prize.

KEARNEY vs. BICKFORD—G. D. Dickson, Q.C., obtained an order to examine two defendants at Montreal and one defendant at Toronto.

RUSSELL vs. CAMPBELL—G. D. Dickson, Q.C., for plaintiff. LEAH, G. C., for defendant. Judgment granted for possession. Defendant to pay costs, except as to matters abandoned by plaintiff.

CARL vs. COCKLEY—Dickson, Q. C., for plaintiff. CLUTE, (Belleville) for defendant. Appeal from Master's report and hearing of case on further directions. Reserved.

## Grand Bicycle Meet and Concert.

An entertainment under the above title, and under the auspices of the Belleville Bicycle Club, was given before a very large audience in the Opera House last night.

Mayor Dundas officiated as chairman. He gave a very neat and appropriate opening address, and declared the night ally.

The first item on the programme was an overture by the L. O. F. orchestra, which is by far the best organization of the kind that Belleville has ever possessed.

The rendering of the Overture was very fine and won merited applause. Next the Club appeared in a very pretty tableau—the members making a fine appearance in their customary uniforms, and the whole looking well.

They were presented with a handsome silver cup donated by Mr. Henry Corby, the President, for competition amongst the members. In the absence of Mr. Corby, who had been suddenly called away from home, the presentation was made by Mr. Thomas Ritchie, whose remarks were much to the point, and the gift was received by Mr. S. R. Rutland, Captain, on behalf of the Club, who joyfully received their generous President and chorused "He's a Jolly Good Fellow."

Mr. Ritchie, who had just returned from London, England, and who saw the Opera House in its completed state for the first time, declared that in all the great metropolis there was not one place better suited for amusement purposes than the Belleville Opera House, where a pleasant evening was received with cheer. The other portions of the programme were then proceeded with.

It consisted of songs by Mrs. Wallace, and Misses Howard, Donnet and Gentry, all of whom were in good voices and sang with great credit to themselves and satisfaction to their hearers. Messrs. Weatherston and Spangenberg sang songs in character, which elicited uproarious applause, and Mr. Walter Donnelly also contributed a song. Prof. Green gave one of his graceful and clever recitations in the sign language, which Prof. Brown introduced.

The recitation was of a comical character, depicting the difficulties of a journey in bicycling, and moved the audience to roars of laughter. Mr. Northcott, Mr. W. R. Carnichael and Mr. Richardson gave recitations, which were fully up to their usual high standard, and were received with marked favor. A quartette and a song and chorus in which Mr. Gentry was to have taken part were omitted, owing to the indisposition of that gentleman. Prof. Stanistreet accompanied very ably. We have thus left to the last the addresses by Messrs. McLean and St. John, which in a full report only can do justice. They were gentlemen both imbued with the lesson that out-door sports, such as bicycle or tricycle riding, were highly beneficial in producing a proper balance between body and mind, and were in the highest degree commendable. Prof. Green gave one of his graceful and clever recitations in the sign language, which Prof. Brown introduced.

PURE SOULS.

Pure souls that watch all men from afar, To whom as to the stars, I raise my eyes, And to their light I turn my face.

Love's music is sweet, and his voice is sweet, His feet are angels, his eyes are as clear fire, And his heart is a furnace of love.

Friendship is a chain, of friendship we are weary, And friendship is a chain, of friendship we are weary, And friendship is a chain, of friendship we are weary.

But they whose lives are pure, whose hearts are high, Whose spirit is by the world untamed, May, at the end, unshaken, Look on their days gone by.

Oh, pure, strong souls, so true, like light and bright, If ever before the end night fell, Through quiet paths, and

Thy Spring's gracious work behold once more, Might learn, as once I heard, long ago, Great waters and flow.

Might learn the use of joy, Might learn the use of joy, Might learn the use of joy, Might learn the use of joy.

OUR LOST.

They were quite new to our friends who have passed Through the gates of death to the sunlight.

Through the gates of death to the sunlight, Through the gates of death to the sunlight, Through the gates of death to the sunlight.

The things which they said, the dear words they said, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

And when we think of them, and of the things they said, And when we think of them, and of the things they said, And when we think of them, and of the things they said.

Yet their souls are in the desolate air, Yet their souls are in the desolate air, Yet their souls are in the desolate air.

## BLACK SILK.

See the line of BLACK SILK that we are offering at \$1.10 per yard. It is worth \$1.50 per yard.

## GLASGOW WAREHOUSE.

Belleville, March, 1884.

## Daily Intelligencer.

BELEVEILLE, SATURDAY, MAR. 8.

### MERE MENTION.

One bolger had possession of the cells last night.

Tax roads were again drifted by last night's storm.

The Board of Education will meet on Tuesday evening next.

Mrs. BOWEN provided the treat for the children of the Mission School yesterday afternoon, which the children enjoyed very much.

According to the *Advocate*, the name of the girl who alleged that she was assaulted in Trenton by James Barber, is Emily Gault.

Mr. Henry Conry has about a thousand cords of wood in his cattle yards and at Plainfield, for use at the distillery during the ensuing summer.

The Street Surveyor could improve that portion of the Canfield road between McGinnis corner and Alford's, as the pitches there are very bad.

On Monday night next a very important session of the City Council will be held and some very important matters will be brought up for discussion.

The Rev. J. B. Clarkson will preach tomorrow morning to the young people, and a special revival sermon in the evening.

As culprits of the moon will be visible in this part of the world on the morning of April 10. This will be the only eclipse of any kind in this locality during the year.

First—Just arrived 16 cases extra Fine Haddis, 7 cents per pound, wholesale. Fresh Sea Herring and Cod, also Pickled Trout, etc., at Goldsmith's, up town. 411.

A CONCERT in aid of Christ Church will take place in the City Hall on Tuesday evening next. Mrs. Walter Ross, of Pictou, and Mr. Howard, of Edinburgh, will assist and Dr. Crozier will conduct the entertainment.

It is among the probabilities that a passenger station for the use of the Midland Railway will be erected here during the coming summer. The location will be in the vicinity of Church, Grand St. James and Pinnacle Streets.

The contract for carrying the stone which is to be used in the construction of the Murray Canal, which is now being taken out at Point Ann, has been awarded to Messrs. S. H. Phippen and Wm. Sutherland, who have purchased the largest quantity for such work.

On the solicitation of many friends, Mr. Roy has consented to give a full exposure of his wonderful entertainment in Spiritualism and mind reading, also Rhodius mystery, in Oldfield's Hall, on Wednesday, March 12th. Mr. Roy having contributed to the success of many local entertainments in return he should have a full home. Give it to him. Admission 25c. ad val.

### TEMPERATURE.

As Registered by Prof. Hall's Self-Registering Thermometer.

Friday, March 7, 9 a. m. Maximum 33; minimum 17.

Saturday, March 8, 9 a. m. Maximum 33; minimum 16.

### Weather Probabilities.

TOMORROW, March 8.—Lakes, fresh to strong northeast to north winds; cold weather, with snow or freezing rain in the southern portion, higher temperature, cold again to night.

### The Wardenship.

The legal issue of this case will be presented before the County Judge on Monday next, when the time for the hearing of the case will be decided on. The date will be put off as near as possible to the June session so that the case will be heard at the June session. The County would be put to the least possible expense.

Prompt relief in such headache, dizziness, constipation, pain in the side, etc., guaranteed to these using Carter's Little Liver Pills. One pill a dose. 25 cents.

### CURLIANA.

The Game for the Calendar Medal.

#### BELEVEILLE VICTORIOUS.

The contest for the possession of the Calendar medal between two rinks representing Perth and Belleville took place last night at Brockville, and resulted in the victory of the home representatives by two shots. The attendance was very large.

The match was a very friendly one and our rinks were treated as well as they could wish. The curling was generally good and several times during the game the scores tied.

The contest began shortly before seven o'clock and was to consist of playing twenty-one ends. The Belleville rink were skipped by Mr. E. Force and Mr. W. H. Bigger. When the rink skipped by the last named had completed their labors, Mr. Force's rink had two ends to play and the game was a tie. On the twentieth end Perth scored one and on the twenty first the Belleville rink tallied three and captured the medal. The scores are appended:

## Daily Intelligence.

DOMINION MINERAL LANDS.

General Features of the New Regulations.

OTTAWA, March 9.—The mining regulations

to govern the disposal of mineral

lands under the new law, will be published

in an extra Gazette. They are applicable

to all Dominion lands containing

petroleum, iron, or other mineral deposits

of economic value, with the exception of

land which may be reserved for other

purposes. No mining location or

claiming claim is to be granted until the

land is surveyed, and the location of the

claiming claim is within the limits of the

location of the claim. The regulations

also provide that the location of a

claiming claim shall be made by the

holder of the claim, and that the

location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

made by the holder of the claim, and that

the location of a claiming claim shall be

Camper, who wrote, in the seventeenth

century, "On the Best Form of Shoe,"

says that his treatise originated in a

man should dare to make public a work

on such a subject," which indicates the

small estimate that was put upon the foot

as an organ of the body. He begins de-

scribing the human foot of "horses, mules,

oxen, and other animals of burden," and

declares that from the earliest infancy the

foot coverings worn serve but to deform

them, and make walking painful and some-

times impossible, and he lays the blame on

the ignorance of shoemakers.

James Dowie, a practical and scientific

shoemaker, in his excellent little

book makes the same statements as the poet,

and the great Dutch surgeon whose

travels he had translated into the English

VOL. 16.

MISS BEATRICE HUDGINS,

Belleville, Ont.

GENTLEMEN! Insure Your Lives in

THE ONTARIO MUTUAL

LIFE ASSURANCE COMPANY,

ESTABLISHED 1870.

Its business is done on the ALL CASH SYSTEM. NO ASSIGNMENTS WHATSOEVER.

It has a full Government Deposit of \$500,000, and Assets amounting to over \$200,000.

It pays a LARGE AMOUNT OF SECURITY, in proportion to its liabilities than

any other Canadian Company, and the Government has guaranteed this, providing for

its security and its future prosperity.

It is a HOME COMPANY, so that every dollar it receives from its policies is securely

invested in our own country.

It is a PROGRESSIVE COMPANY, for while the assets in December, 1870, were only

\$62,500, at the close of 1882 they reached the handsome sum of \$475,000.

It is the Cheapest Company, it is ready to pay out of the premiums or funds of its policy

holders in the payment of losses to stockholders.

It pays its claims immediately after the necessary papers have been completed, without

any delay, and it is a fact that it has never failed to do so.

Its Death Rate is proportionate to the amount insured, and is smaller than any other Company

showing the new that is contained in the selection of risks.

Information cheerfully given by

S. BURROWS,

General Agent,

CHIN C. ROSE, Special Agent, Franklin

OFFICE, ASHLEY BLOCK, BELLEVILLE.

ASSURE IN THE

SUN LIFE ASSURANCE COMPANY

WHY? BECAUSE

1.—The SUN is a Home Company, investing all its funds in Canada, and has thus a special

claim on Canadian Assets.

2.—It is a strong and progressive Company with large and well invested assets.

3.—It is ready to pay out of the premiums or funds of its policy holders in the

payment of losses to stockholders.

4.—The SUN alone issues an absolutely Unconditional policy. Great care is taken in the

selection of risks, but when a Policy is once issued the money is paid on simple proof of

the assured, no matter how, or when, or where. The only condition is the payment of

premiums.

5.—The SUN has not ONE Contested or Disputed Claim on its Books.

POSITION IN 1883.

## Daily Intelligencer.

IT WAS MY MOTHER'S CHAIR.

Yes, a pleasant history belongs to that old chair.

That makes me think of it, more than

any other. Longing to sit in it, I look upon the

It is the sweet and hallowed presence of my

mother.

So often through old-fashioned, or straight and

stiff it seems.

To me it is of value, no other can compare.

Her life was spent in it, and I, too, have

lived in it. It is the sweet and hallowed presence of my

mother.

One hurried back glance, my childhood's

Mother in her best white cap and shining

hair, with the white on her lap, as we sat in it

round the table.

A very Queen look'd mother, as she sat in that

old chair.

Then, when little children, all rode on it

Happy as Royal Princes, with all their suite

and train.

As we rode to Banbury Cross, and back

and rook'd it to sleep when tired or in pain.

Again as dawning morning gradually ap-

peared, surrounded with temptations, glittering

and fair.

In childhood's hour we peered our eyes

and fear.

Sure of her sweet sympathy, none of mother's

pleading for grace and wisdom to guide her

way.

And by and by, and all things, both great and

small, take care

To tell her of her own, or trust in her might;

For her hand, her hand, we knew we could

trust.

Mother always went to guide her every

way.

And by and by, and all things, both great and

small, take care

To tell her of her own, or trust in her might;

For her hand, her hand, we knew we could

trust.

Mother always went to guide her every

way.

And by and by, and all things, both great and

small, take care

To tell her of her own, or trust in her might;

For her hand, her hand, we knew we could

trust.

Mother always went to guide her every

way.

And by and by, and all things, both great and

small, take care

To tell her of her own, or trust in her might;

For her hand, her hand, we knew we could

trust.

Mother always went to guide her every

way.

And by and by, and all things, both great and

The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

The father has to be more gentle in the house.

Does not that prove too much?

Yes, it does. But He made the world, and

He made the Bible, and He made the

verse. The Bible says that all things are made to Him.

Does not that prove too much?

Yes, it does. But He made the world, and

## Buddhism in Relation to Christianity.

At the last large meeting held in

February, by the Victoria (Philosophical) Insti-

tute, 7, Adelphi Terrace, London, a paper

was read by the Rev. R. C. Collins, M. A.,

on Buddhism in relation to Christianity.

Referring to the parallels between the

person and character of Buddha and Jesus

Christ, he said:—Take, as a prominent in-

stance, the birth stories. I need not here

give details, which are to be found in any

modern work on Buddhism. The supposed

miraculous conception, the bringing down

of Buddha from the Tivoli heaven, the

Divine acknowledging his supremacy; the

## GLASGOW WAREHOUSE.

Belleville, March 18th.

## Daily Intelligence.

BELLEVILLE, WEDNESDAY, MARCH 19.

## MILITARY MENTION.

The military examinations closed last evening.

Ox armist was made last night. The victim was suffering from delirium tremens.

The period for "marriages in high life" and "social events of the season" is rapidly approaching.

The Board of Health are taking active steps to secure the cleaning of premises.

All interested will govern themselves accordingly.

It is altogether likely that Mr. James Gordon will be the winner of the Shepard Medal this year. John Bonar was his possessor last year and Edwin Forrester the year preceding.

The disputed Wardenship question will be tested to-morrow. Several of the members of the County Council who have been summoned to give evidence in the case, arrived to-day. Judge Langer will try the case.

The Ottawa correspondent of the Toronto News (Miss Nimmo), says Mrs. E. Stone Wiggins, wife of the famous water prophet, well known in Belleville, is "one of the most interesting women in Ottawa."

He who knows Mrs. Wiggins will say that this tribute from one of her own sex, an experienced and a social critic, is well deserved.

Mr. J. N. Nicholson left this afternoon with a number of cattle and several horses for the Ottawa market. The lot consists of nine thoroughbred and all are in fine condition. Mr. N. has embarked in the horse purchasing business and as this is his effort we trust it will meet with success. Johnny is a good shrewd judge of horseflesh, and what he does know about an animal is not "wish" knowing.

Weather Probabilities.

TORONTO, March 19.—Lakes, northeast to north winds, fair to cloudy weather, with local rains in southern Ontario, slightly higher temperature.

TEMPERATURE.

As Registered by Prof. Hall's Self-Registering Thermometer.

WEDNESDAY, March 19, 9 a.m., Maximum 40; minimum 23.

PERSONAL.

Rev. Mr. MURRAY, of Colborne, returned home last evening.

Mr. T. H. COOPER, of the G. T. R., paid an official visit here on Friday night.

Two many friends of Mr. Frank McKee will regret to learn that he passed away last night.

Mr. D. A. SMITH, Vice President of the Canadian Railway, passed away last evening.

Mr. THOMAS DOWDY, a former resident of Belleville, is again here visiting friends and renewing old acquaintances.

He is still in the employ of the Holy City Company of Lockport, N.Y., and recently superintended the introduction of the Holy water system in Bay City, Michigan.

He is looking as well as usual, and his friends cordially wish him well.

He will visit the authorities here with the view of introducing the Holy water system in Belleville.

POLICE COURT.

Thomas Sheldon drunk, was sent up for a week. John Cotton, John Cronin, John Burton, and R. Day paid a dollar and costs for non-compliance with the provisions of the dog by law and F. Anderson, J. Reeves and J. Bullen were dismissed.

Campbellford Correspondence.

CAMPBELLFORD, March 18th, 1884.

A company of gentlemen belonging to the Northumberland Agricultural Society have purchased a lot of land from Mr. R. Cockburn for the purpose of agricultural exhibitions. The site is beautifully situated, only a short distance from the village on the old "Campbell Farm" and adjacent to the River Trent.

Backsiders' Arctics Sale.

The best Sale in the world for Arctic, Russia, Unga, Salt Hebrides, Feroe, Shetland, Hebrides, Chitchee, Ceres, and all other Arctic, and positively extra. Price, 25 cents per lot. It is a great bargain. For full satisfaction, or money refunded. Price 25 cents per lot. For sale by R. Templeton.

Special Gospel Meetings. Richard Irving and A. S. Holbe, evangelists, will hold a special meeting in the Baptist Hall on Sunday at 7 p.m. Child of God, saved by His matchless grace, come and bring with you an ungodly child, friend or relative, and they may have their souls saved, eternally drawing him. All come. 2641

## Belleville Legal and Literary Society.

The general meeting of this society was held last evening at the usual place.

The President, J. J. Flint, being absent, on account of indisposition, Mr. S. S. Wallbridge was called to the chair. A lecture on "Guantanamo" was then delivered by W. B. Northrup M. A., and the excellent, fluent and able manner in which he dealt with his subject was but an exemplification of his scholarly attainments and justly elicited a unanimous vote of thanks from the society to the lecturer.

Then followed a debate on the subject—Resolved—"That the separation of the legal profession is a preferable arrangement." The affirmative was supported by J. A. Farn, Mr. Dow and W. H. Campbell, and negative by F. E. O'Flynn and K. S. Young. Verdict for affirmative.

## OBITUARY.

James Cunningham.

The subject of this notice was born in Ireland in the vicinity of Dublin, and came to Canada when seven years old. He resided in the vicinity of Belleville, and was in his youth athletic, and was considered a very clever boy. He was a deep reader and thinker, and spent many of his spare hours in pursuing the works of prominent authors. His country was his home, and indications of that dread disease, consumption, presented themselves in his early days. Eight weeks ago today he went to his room to pass away last night at 10 o'clock. He was 37 years old.

The deceased was well known, and was highly respected by all who knew him. "Who is he who has left his faults?" may be said of anyone living, but James Cunningham possessed many excellent traits that would more than atone for the weakness shown by the common mortal.

He was for some time a clerk in a grocery store and subsequently with his brother, engaged in business which, not proving as profitable as he could wish, he again went into "clerkdom."

Seven years ago-to-day he entered the employ of the Conger Brothers. They have always entertained a very high opinion of him and he was highly esteemed by the customers of that firm. His conduct was irreproachable, obliging and good natured and all who knew him will regret his demise.

## WILLIAMSON NOTES.

There has been much underhand dealing done in this Township, this winter. We have had abundance of snow, and this has been the worst winter for drifts that has been known in twenty years.

Petitions are in circulation in this Township, asking that the Legislature will prohibit the killing of deer by dogs.

The residents object to the killing of deer being made a business.

Mr. Wood's action in the Local Legislature meets with the approval of his constituents in this section. His efforts as the master of the iron mines and especially the school question are generally endorsed.

The Ontario Central Railway is considered to be a great advantage to this section of the County, but if the employees of the company were paid more regularly a great deal of grumbling would be avoided.

## SHANNONVILLE NOTES.

SHANNONVILLE, March 8.

Mr. Stickey, principal teacher of Shannonville Academy, was taken suddenly ill on Wednesday last, and his wife, who is a school teacher, is expected to return in a few days.

The "Hallelujah Band," from your city, visited this village on Sunday, and around all denominations. Crowds of people gathered to hear them, and the music was heard here. We believe they were zealous in their work, and a great deal of good was done. The meetings are still continued under the guidance of Rev. J. C. Aah and Mr. Hyde, one of a large quantity of barley has been brought during the winter season, but operations will soon be brought to a close, the farmers are preparing for spring's work.

Messrs. Yott and Muscally, grain buyers, will be having us in a few days.

The Presbyterian kindly will hold their meetings on Sunday so as all could hear the Hallelujah Band.

We are sad to relate the death of Mrs. Emma Flood, daughter of James Geddes, which was caused by consumption.

The funeral took place on Sunday at the M. E. Church, and was largely attended. The friends have the sympathy of the whole community in their bereavement.

The extensive work which was given in the Masonic Hall last Friday evening, by the College students of Belleville, was very satisfactory, especially the recitations that Mr. Clarke favored us with.

The Magic Music of the Island, was here spending a few days with her friend, Miss Randall.

Miss Doney, of Northport, has taken advantage of visiting her home, Miss Creeper, while making her home, and has been here for some time.

If a lady still desires to have her hair done, will soon open.

## Very Remarkable Recovery.

Mr. W. J. Welling, of Manchester, writes "My wife has been almost helpless for several months, and could not move in bed alone. She used two bottles of Electric Bitters, and is now able to do her own work. Electric Bitters will do all that is claimed for them. Hundreds of testimonials attest their great merit. Only fifty cents a bottle at R. Templeton's Dispensary."

A lady writes "I have tried 'Tabern', and it is the best thing on the face of this earth for the Sore Throat and Throat."

## Sore Throat Cured.

A lady writes "I have tried 'Tabern', and it is the best thing on the face of this earth for the Sore Throat and Throat."

A lady writes "I have tried 'Tabern', and it is the best thing on the face of this earth for the Sore Throat and Throat."

At a meeting on Monday evening, a good speech was made by the Rev. J. C. Aah, who was elected to the position of Moderator. The prayer was read by Mr. S. S. Wallbridge. The reading of the minutes was made by Mr. S. S. Wallbridge. The report of the Treasurer was made by Mr. S. S. Wallbridge. The report of the Secretary was made by Mr. S. S. Wallbridge. The report of the Committee on Finance was made by Mr. S. S. Wallbridge. The report of the Committee on Legislation was made by Mr. S. S. Wallbridge. The report of the Committee on Education was made by Mr. S. S. Wallbridge. The report of the Committee on Public Works was made by Mr. S. S. Wallbridge. The report of the Committee on Social Reform was made by Mr. S. S. Wallbridge. The report of the Committee on Foreign Relations was made by Mr. S. S. Wallbridge. The report of the Committee on Internal Affairs was made by Mr. S. S. Wallbridge. The report of the Committee on Military Affairs was made by Mr. S. S. Wallbridge. The report of the Committee on Naval Affairs was made by Mr. S. S. Wallbridge. The report of the Committee on Air Force was made by Mr. S. S. Wallbridge. The report of the Committee on Space and Rocketry was made by Mr. S. S. Wallbridge. The report of the Committee on Astronautics was made by Mr. S. S. Wallbridge. The report of the Committee on Cosmonautics was made by Mr. S. S. Wallbridge. The report of the Committee on Interplanetary Travel was made by Mr. S. S. Wallbridge. The report of the Committee on Extraterrestrial Life was made by Mr. S. S. Wallbridge. The report of the Committee on the History of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Future of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Nature of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Origin of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Evolution of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Structure of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Composition of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Dynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Thermodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Electrodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Magnetodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Gravodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Hydrodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Aerodynamics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Acoustics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Optics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Mechanics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Physics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Chemistry of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Biology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Geology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Meteorology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Climatology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Oceanography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Limnology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ichthyology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ornithology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Mammalogy of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Reptile and Amphibian of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Invertebrate of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Botany of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Zoology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Anthropology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Archaeology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Paleontology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Epigraphy of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Numismatics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Philology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Linguistics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Literature of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the History of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Geography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Topography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Hydrography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Meteorology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Climatology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Oceanography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Limnology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ichthyology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ornithology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Mammalogy of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Reptile and Amphibian of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Invertebrate of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Botany of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Zoology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Anthropology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Archaeology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Paleontology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Epigraphy of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Numismatics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Philology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Linguistics of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Literature of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the History of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Geography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Topography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Hydrography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Meteorology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Climatology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Oceanography of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Limnology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ichthyology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Ornithology of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Mammalogy of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Reptile and Amphibian of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Invertebrate of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Botany of the Universe was made by Mr. S. S. Wallbridge. The report of the Committee on the Zoology of the Universe was made by Mr. S. S. Wallbridge. ## SEWED EMBROIDERIES.

A Case of Embroideries for the Spring Trade. MICHIGAN CHARTER LAST YEAR.

## PRINTS.

SEVEN CASES of Prints, imported before the extra duty was added. SATURDAY COTTONS, STEAMLOOMS and SHEETINGS imported since the last of the extra duty was added. SATURDAY COTTONS, STEAMLOOMS and SHEETINGS imported since the last of the extra duty was added. SATURDAY COTTONS, STEAMLOOMS and SHEETINGS imported since the last of the extra duty was added.

## LINENS.

TABLE LINENS from 20 per cent. GRASS LINENS, TOWELLINGS, NAPKINS, &amp;c., below usual prices.

## BLACK SILK.

See the line of BLACK SILK that we are offering at \$1.10 per yard. It is worth \$1.50 per yard.

## GLASGOW WAREHOUSE.

Belleville, March 18th.

## Daily Intelligencer.

BELLEVILLE, SATURDAY, MARCH 22.

## MERE MENTION.

RENEWAL and Thompson's spring opening will take place on Saturday, 27th. There was a small number of arrests. Two arrests were recorded last night. Soons will the church of the robes be heard. "Poor Lot" was well represented in town today. The street crossings were closed this afternoon. SEN. HATHAWAY'S weakness that numbers appear to get glutting.

The ferry question was the great topic of conversation in the city this morning. The arguments in the Vandenberg case closed last evening and judgment was reserved.

MR. F. LAMR, of Montreal, will preach at the Baptist Church, to-morrow morning and evening. The ice below the dams on the river is broken up, and if the thaw continues the Moira will soon be open.

The streets of the city have been greatly improved by the "hull" work, for the week in the country are very low.

The funeral service of the late Miss McDougall, of the Institute, will be preached by the Rev. Wm. Stacy, in the Congregational Church, to-morrow. Services at 11 a.m. and 7 p.m. on Sunday.

The evening in Hotel Hall, Mr. Richard Irving, Esq., will (D.V.) address the meeting, and also give a Bible Reading at 7 p.m. A heavy invitation is extended to all.

The Toronto World says of the Silver King: "It is one of the best plays produced at the Grand this season and has been drawing large audiences. The Silver King is a play long to be remembered, both on account of the moral lesson it conveys and the perfect manner in which it is produced."

Miss Lucas wishes to deny the statement that her team ran away. Happening to drop the lines, she says, the horses started, when she reached out and caught the lines and at once controlled them. She denies having been thrown from the cutter, which was said to have been broken.

RITCHIE &amp; Co. announce their Spring opening for Tuesday noon. Mr. Thomas Ritchie has recently visited the European markets and has had an excellent opportunity of seeing all the latest novelties and innovations that have been presented in Paris and London. The display will equal any heretofore made by his popular firm.

The Ontario Palladium of the 20th, said: "A commission appointed by a Canadian court and consisting of Messrs. in Chancery Laurier, Attorney Williams of Belleville and Attorney Hays and Delancy of Trenton, have been in town the past few days taking testimony in the case of the Midson Bank of Montreal against the bondholders of Henry Coussin, a Trenton grain dealer who failed recently. A great deal of time has been expended in the case, and the Ontario Commission has heard from C. C. Morton and J. L. Wood were sworn yesterday. The amount involved is said to be considerable."

Weather Probabilities. Toronto, March 22.—Light, with to east winds; continued fair weather, higher temperatures, followed by fair (light to light) or tomorrow.

TEMPERATURE. As Registered by Prof. Bell's Self-Registering Thermometer. SATURDAY, March 22, 9 a.m. Maximum 50; minimum 30.

PERSONAL. A. P. WOOD, Esq., M. P., was in the city today.

JAMES WHITE, Esq., M. P., was in town today, looking in excellent health.

ALL G. H. P. H. was in town yesterday from New York and he looks in splendid health.

ALEX. BROWNE, Esq., M. P., arrived from Ottawa this morning and is looking far better and stronger than when last here.

## Special Gospel Meetings.

Richard Irving and A. S. Ralph, Evangelists, will (D.V.) conduct meetings in the Hotel Hall from night to night at 8 o'clock on Sunday at 7 p.m. Chief of God, and by His matchless grace, come! and bring with you an immortal friend or relative, and they may find Christ. Time is short, eternity is drawing nigh. All come.

## AGAIN IN TROUBLE.

William Bass, after serving a term of 3 months in jail, was released on Thursday morning. He began to "celebrate" his freedom, and getting pretty full of enthusiasm again got in trouble.

The man was very desirous that he should visit a certain woman in Illinois, and to enable him to do so, he gave him \$20. Bass proceeded to invest the sum in a manner that was not contemplated by the woman who gave him the money. He purchased a revolver at a second hand shop and also bought some cartridges. He wanted, it is said, to kill two men and make the necessary preparations although he did not carry out his threats; instead, he wandered to the west side of the river. He entered a tenement occupied by Mrs. Pelletier, Marlow and Grooms, and approached the former. "Hear me, Pelletier," said Mrs. Pelletier, "I am away from here and went into Mrs. Marlow's house. Immediately after her entrance Bass drew his revolver and fired in the air and the woman fell to the floor. An officer was sent for and Constable Hayes responded. As he was bringing his prisoner to the police station and when walking on the eastern approach of the lower bridge, he dropped the woman, which was taken up by the police. The weapon had five chambers, one of which was empty and another contained a shell.

Bass is a very bad character and has appeared in the Police Court very frequently.

## H. K. L.

Another successful meeting of the High School Literary Society was held last evening. Recitations by Miss Mitchell and Miss Fleming were justly admired, while humorous readings by Messrs. Dunn and Pope, metaphorically speaking, "brought down the house." In the debate some good points were shown. In the second round Miss Alice Twining, Miss Meta Young, and Mr. G. C. Clark divided the honors. The skill displayed by Miss Mitchell, Mr. Owen McCarthy, and Mr. DeLan, in the instrumental solos, elicited general approval. Mr. W. Dempsey gave a very pretty solo, which concluded the evening's program.

## Committee Work.

The Executive Committee of the Home Association held a meeting last evening. The committee would improve the fund now occupied by No. 1. The committee also made a report on the progress of the work.

The subject was left in the hands of the Executive Committee and Solicitor as to details. The Committee approved of the recommendation of the Public Works Committee.

The sum of \$100 was voted for repaying College street.

The account of Hodge and Dancy for \$10 for a pump and repairs was endorsed. The account of the approval of the payment of the account of the Building Fund \$100.

The account of the Building Fund \$100 was approved. The account of the Building Fund \$100 was approved. The account of the Building Fund \$100 was approved.

## DRIFTWOOD.

What is going on Around and About It. Mr. W. H. Rolner, of Amherstburg, has a raft without a tail.

Trenton is to be the field of vast building operations, the city of the future. A considerable body has been brought to Kingston during the week, and from \$4 to \$8 per ton.

Scarlet fever and whooping cough are more or less prevalent throughout the township of Southampton.

It is said that Miss Miller has procured a large number of fruit trees in Prince Edward Island during the past winter.

The Spanish brand land is about to be reorganized, they having secured the services of a leader from Pictou.

James Bowen, Deseronto, has an apple tree which was planted by one of the W. E. Loyalists. It still bears fruit.

Three spans of the superstructure of the Ontario and Quebec bridge over the Ottawa have been placed in position.

J. S. McQuig, has asked Sir Charles Tupper to give a subsidy towards building a railway from Pictou to Deseronto.

Chief Hinde, of Trenton, was badly beaten on the head by a man named Miller. He broke his nose and otherwise injured him.

A number of Kingston Deseronto soldiers, including Captain Rigby, attended a dance at Caledonia the night of the 20th.

Mr. H. H. Palmer, of Amherstburg, has a collection of 240 different kinds of wood. It would be exceedingly difficult to beat this.

Hon. John B. Finch, of Nebraska, one of the leading temperance orators of the United States, will speak in Pictou on 6th and 7th of April.

A Kingstonian, who has a wife and four children, has eloped with a Portsmouth woman. Their names are not known. The elopement is a matter of Belleville.

Some parties unknown broke into the residence of Mr. J. C. Greaves, Caledonia road, on the 18th, and carried off a considerable quantity of clothing and other articles.

The back licks of the County of Frontenac that are considered most for the growth of salmon trout and whitefish, will be supplied with fry from the Newcastle and Sandusky hatcheries this spring.

John Doyle went to Mr. Clapp's residence in Belleville last evening, and while the evening meal was being prepared made an attack on Clapp and beat him in a severe manner. Doyle was arrested, lodged in prison for trial and has been lodged in Pictou jail.

"Wedding Bells." On Tuesday evening, the 4th inst., the house of John H. Vandervoort, Esq., of Sidney, was filled with a happy company of friends to witness the marriage ceremony of Miss Mary E. Vandervoort and Mr. J. H. Vandervoort.

Shortly after the married pair had assembled to the number of about sixty, the ceremony which made them twin was impressively performed by the Rev. Mr. Walker of Sidney. The bride and groom were greeted with good wishes from the friends of the bride and groom, after which all present were invited to partake of the banquet of a sumptuously spread table, which all seemed most heartily to enjoy.

The evening meal was most delicious and the guests began gradually to depart. About 10 o'clock a. m. in the married couple left to take the west bound train, to spend a few days among friends in Western Canada.

A large number of handsome and valuable wedding gifts were presented to the bride by the following persons:—Miss Sadie Anderson, Bellemead, beautiful silver card, and a beautiful silver vase. The groom's gifts were a beautiful silver card, and a beautiful silver vase.

The groom's gifts were a beautiful silver card, and a beautiful silver vase. The groom's gifts were a beautiful silver card, and a beautiful silver vase. The groom's gifts were a beautiful silver card, and a beautiful silver vase.

## Why Young Taylor Disappeared.

He steals \$1,531. The statement that Frank Taylor, the young clerk of the Merchants Bank who is missing, had not been guilty of any offense, proved to have been incorrect. It has been discovered that he had stolen a registered letter, the property of the bank, containing \$1,531. Of this amount \$1,200 was in cash and the balance in cheques.

The affair is a very painful one, as the young man had borne an excellent character and his conduct will reflect undecorated odium upon his respected father. It is supposed that the fugitive has gone to Mexico.

Trenton Notes. An altercation occurred yesterday between two Trenton hotel men. A fight of black eyes and a probable law suit is the result.

The river is breaking up fast. The Kingston Whig of yesterday said:—"Capt. Hughes received a letter this afternoon from the Chief of Police stating that the Magistrate required the Salvation Army to cease the beating of drums on the street in future."

Patterson Bros. The following, clipped from other papers, speaks well for the firm of Patterson Bros. In summing up a long editorial the *Liberal* says:

We might sum up the coming season's turn out as follows: 400 coppers, 600 mowers, 3000 hoes, 500 horse rakes, 2,000 spring-tooth harrows, 1,000 spring-tooth cultivators, and 1,000 ploughs.

The reapers, mowers, and other agricultural implements manufactured by this firm are too well known to require special mention, but as the self-binder has been improved since last season, we deem it our duty to place to give a short description. The binder is about 400 pounds lighter than that of last season, and although the whole machine is 2 feet narrower, it is only a machine narrower in fact. The young machine is also considerably changed, it being now with many pieces, thereby simplifying the machine. The binder proper is folded up to pass through a door or gate-way 10 feet high and 10 feet wide.

The binder is so constructed that it can be shifted backwards or forwards to bind near the heads or butts of a sheaf of grain, by a leverally operated cord by the driver's hand. He can tilt the machine to pick up lodged grain, and give four different motions to the reaper.

The reaper of the machine can be raised or lowered by the driver, while in motion. In fact the driver has full control of the machine from his seat. The improvements are secured to the machine by patents in Canada and the United States.

The improvements over other machines can be imagined when we say that one of the best firms in Canada has purchased the right and patented together with a sample machine to build from. This speaks volumes for the Patterson binder, and goes a long way to show it has no equal. We can no further patinize for want of space, but in conclusion would congratulate this neighborhood on having such an establishment in its midst, as well as the Patterson firm in possession of the most modern, efficient and intelligent looking workmen.

A correspondent of the *Whitby Chronicle* writing about the firm of Patterson & Bros. says:—"The hands are paid regularly on a fortnight, and in addition on stores, but in the winter in fall. I am glad to learn, that, contrary to the usual custom of reducing the number of men during the winter months, the Messrs. Patterson have kept up their full staff of workmen during the year, and that, even at this early season, the prospects are so encouraging, that they have decided to increase their product 25 per cent, which will, as the season progresses, require an increase of hands in about the same ratio. Their large and prosperous business is in fact the only one of the kind in the district, and their application and observation, enabling them to keep abreast of other manufacturers, and in some cases to take the lead in the adaptation of their implements to the requirements of the farming community. Their motto has always been to *do better and cheaper* with every man, to use only the best material that could be procured, to employ only the most skillful mechanics and to give the fullest guarantee to the producer on every article. I am glad to learn, that, contrary to the usual custom of reducing the number of men during the winter months, the Messrs. Patterson have kept up their full staff of workmen during the year, and that, even at this early season, the prospects are so encouraging, that they have decided to increase their product 25 per cent, which will, as the season progresses, require an increase of hands in about the same ratio. ## SAVED ON THE GALLOWES.

The Days when Theft was a

Capital Crime in Canada.

A GOOD MINISTER PRAYING AGAINST IT.

The following brief news item appeared

in an item paper on Thursday.

Richard Carr, an old Canadian settler,

who had lived on this side of the

lake for many years, died on Monday

and was taken to Ontario for interment.

He was once sentenced to be hanged.

It was seen by Dr. M. J. Clark, and

the Doctor furnished the following

account of Carr's escape from the gal-

lows:

"I had no idea that Carr was living on

this side of the lake, or that he was living

at all. Not having heard anything of him

for thirty years, I supposed him long since

dead. Carr, however, being a close

and escape are events closely connected

with my family and my childhood, my

uncle, Rev. John Ryerson, being a

clergyman who attended Carr to the scaf-

fold and who prayed against time for the

purpose of clearing the hangman. He

succeeded, and this is how it all happened.

It was a child at the time, and it happened

at Victoria, a Canadian village just across

the lake, about fifty-five years ago. A

young man, named Carr, who was a

quintessential young man, and who was

condemned to die with him. The

affair formed the theme for many atrocious

tales by the village boys, and just as

the execution of the three Thayers in

Buffalo did. I see by the papers that

half-a-century ago a cold-blooded murderer

freely exposed the attention of Her Most

Excellent Majesty's language through

the line of law, but in the good

old days no poor wretch, whose suffering

family prompted him to steal sheep or

commit any other crime, was ever

executed, or, if not, he was

promptly, if not artistically

executed. I remember well the village

was thrown into great excitement by the

discovery of a crime for which the penalty

was death. The village of Victoria

was in an uproar. Some one had told

of a diligent search and suspicion fell upon

Carr, who was known to be poor, and

whose house the odor of cooked meat

hung. The village boys and the

signatures, that were to be seen in my

eyes then, succeeded in extorting a

confession of guilt from Carr, and

he was taken to the gallows. Carr

ASSURE IN THE

SUN LIFE ASSURANCE COMPANY

WHY? BECAUSE

1.—The SUN is a Home Company, investing all its funds in Canada, and has thus a special

claim on Canadian Assets.

2.—It is a strong and prosperous Company with large and well-laid assets.

3.—Its rates are low and its policy to Policy-holders equally liberal.

4.—The SUN alone issues an absolutely Unconditional policy. Great care is taken in

the selection of risks, but when a Policy is once issued the money is paid on simple proof of the

death, no matter how, or where. The only condition is the payment of premiums.

5.—The SUN has not ONE Contested or Disputed Claim on its Books.

## Daily Intelligencer.

AGRICULTURAL IMPLEMENTS.

Mr. John White, V.P., on the Benefits

of the S.P.

(From the Official Report.)

Mr. White (East Hastings). We have

been much and about grain, and

about giving advantage to the few at

the expense of the many, and I think

it would not be out of place for me to

make a few remarks on that point. I am

told that the hon. member for North

York, in addressing the House, and

the manufacturers of the country were

producing inferior articles to those

produced under the old tariff and sell

at a greater price. Mr. Speaker, what

are the facts? I am told that in

1875-76, manufactured, if I make

not 200 reapers, 600 mowers, 400

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

ploughs. They are now manufacturing

1,000 reapers, 2,000 mowers, 3,000

plows, and about 1,000 to 2,000

\$1,000 REWARD.

Will be given by the Crofton Indian Medicine

Co. for anyone of Liver Complaint, Dyspepsia,

"Sick" Headache, General Debility, Salt

Rheum, or Pimples Skin which cannot be cured

by using Crofton's Bitters, according to

directions. Sent by

R. TEMPLETON,

Durham, N.H.

Are angels ever deeply? asks an

exchange. Just watch your best girl when

you read a scientific paper to her after it

is time for you to go out and dodge the big

dog in the front yard.

The following question is to be wrestled

with by a country debating society at its

next session. If a Mormon has eight wives

and buries one of them, how much of a

widower does he become, if any?

No one talking the living skeleton is a

failure in a matrimonial sense. How long

did our skeleton and his wife live together?

How long did Hannah enjoy the sweet

matrimonial bliss with Sarah?

"There is one point for which I especially

admire Washington," said Mr. M.

Mourner, who had just buried her third

husband. "He married a widow, thus

settling all domestic matters at once."

"It is terribly true," remarked the

man with the bare face, "and I can't

stand it another day. Whenever I am

speaking to you to ask a question, I am

invariably answered 'Yes, sir, or No, sir.'

In one of our Indian languages the

word "woman" is rendered "Kwan-jan-jan,"

with marked and earnest emphasis

on the last two syllables. Even the

youngest of our children, when they

understand the rule and wicked arts

of the lying liar.

A couple of Vassar girls were found by

a country fencing with broadswords in a

gymnasium. He reminded the young girls

that such an accomplishment would not

be in securing husbands. "It will help

us keep them in," replied one of the girls.

He was rather solid and aced-looking,

his nose resembled a crane, and when

he entered a store and looked at the

head of the firm with "Say, boss, I

have a fund to lay my mother-in-law

can't you give me a lift?" he was

immediately accommodated. He was given

a lift that almost landed the roots of

his hair.

Robt Bonker is 61 years old, and wears

trousers. The state of his mind is

deserving of the dignity of a newspaper

paragraph. (Gambler doesn't say why.)

He says that he is qualified for 61 years

of age, and has been wearing the

### FOR THE LADIES.

Marriage is the natural lot of the

terrestrial. Even corns have to be pared

now and again.

A Pennsylvania justice has married

2,300 couples, and the consanguinity

which now declines a re-election to

office.

How a woman always does up a new

corset she sends to a friend, so that it

looks like a well-stuffed pillow, is some

thing that no man is woman enough to

understand.

Mr. Houseman, who has a terrible

time every morning to get her young brood

out of their beds, says she cannot understand

why children are called the rising genera-

tion.

Are angels ever deeply? asks an

exchange. Just watch your best girl when

you read a scientific paper to her after it

is time for you to go out and dodge the big

dog in the front yard.

The following question is to be wrestled

with by a country debating society at its

next session. If a Mormon has eight wives

and buries one of them, how much of a

widower does he become, if any?

No one talking the living skeleton is a

failure in a matrimonial sense. How long

did our skeleton and his wife live together?

How long did Hannah enjoy the sweet

matrimonial bliss with Sarah?

"There is one point for which I especially

admire Washington," said Mr. M.

Mourner, who had just buried her third

husband. "He married a widow, thus

settling all domestic matters at once."

"It is terribly true," remarked the

man with the bare face, "and I can't

stand it another day. Whenever I am

speaking to you to ask a question, I am

invariably answered 'Yes, sir, or No, sir.'

In one of our Indian languages the

word "woman" is rendered "Kwan-jan-jan,"

with marked and earnest emphasis

on the last two syllables. Even the

youngest of our children, when they

understand the rule and wicked arts

of the lying liar.

A couple of Vassar girls were found by

a country fencing with broadswords in a

gymnasium. He reminded the young girls

that such an accomplishment would not

be in securing husbands. "It will help

us keep them in," replied one of the girls.

He was rather solid and aced-looking,

his nose resembled a crane, and when

he entered a store and looked at the

head of the firm with "Say, boss, I

have a fund to lay my mother-in-law

can't you give me a lift?" he was

immediately accommodated. He was given

a lift that almost landed the roots of

his hair.

Robt Bonker is 61 years old, and wears

trousers. The state of his mind is

deserving of the dignity of a newspaper

paragraph. (Gambler doesn't say why.)

He says that he is qualified for 61 years

of age, and has been wearing the

trousers.

He says that he is qualified for 61 years

## Daily Intelligence.

Interesting Tree.

The trunk of a sycamore, near New

Madrid, is 43 feet in circumference.

An oak in Barrow County, N. C.,

measures 244 feet in circumference, 15

feet above the ground.

A white oak tree in the prairie of

Amos Harvey, of Mansfield, Hunting-

don County, N. J., measures twenty-one

feet in circumference.

An apple tree in Mercer County, Ky.,

has borne fruit for sixty seasons without

falling. Five feet from the ground its

trunk is ten feet and nine inches in

circumference.

A lemon tree on the farm of Thomas

Kennedy, at Norman's Lake, Fla., nine

years old, has borne fruit eleven years,

and has carried for its owner \$100

a single season.

In the negro cemetery at America, Ga.,

is a cedar tree that was planted in a

pit about 100 years ago, and the tree

is now about 100 feet high, and the

circumference of the trunk is sixteen

feet near the four different limbs.

In 1870 it bore fruit on all its limbs.

The soft maple tree that was cut down

on the White House grounds last Decem-

ber, was about 100 years old, and the

circumference of the trunk is sixteen

feet near the four different limbs.

In 1870 it bore fruit on all its limbs.

The soft maple tree that was cut down

on the White House grounds last Decem-

ber, was about 100 years old, and the

circumference of the trunk is sixteen

feet near the four different limbs.

In 1870 it bore fruit on all its limbs.

## Daily Intelligencer.

**Early Vegetables.**

Every farmer should have a hot-bed,

and every one who has only a garden plot

should have a window box for growing plants

for setting out early. Everything grown

in the garden may be prepared for

early planting out. Tomatoes, cabbages

and melons are quite commonly prepared

in this way. It is not necessary to give

attention to potatoes, sweet corn, lettuce

and other common plants. But these are

not necessary to the winter, one

can get on better without tomatoes than

potatoes at the daily meal, and at the time

when the first early potatoes may come in

they are costly to buy, or impossible in

most cases, and the old ones are "lumpy"

and of no use. The early ones are

very valuable, and should be raised in

the garden, and should be raised in

the garden, and should be raised in

the garden, and should be raised in

## GLASGOW WAREHOUSE.

Bellefleur, March, 1884.

## Daily Intelligencer.

Bellefleur, Friday, March 28.

## MISCELLANEOUS.

FURTER cases have appeared. The street cars are again on the rails. New maple molasses is in the market. The fine cream freezer is undergoing repairs.

The crew being at Trenton has been injured by the ice.

All the trouble is over and the Moira is again calm and peaceful.

It is expected that everything will begin to clear up about three weeks.

Four young men, who were the steamer Bay of Quinte arrived here from Kingston. Immigrants are again going westward.

A train load passed up yesterday afternoon. Four - 10 barrels of fresh frozen fish. Herring arrived this morning at Galt's wharf, up town.

PAINTERS and paper hangers now assume an air of content, as the time for house cleaning has arrived.

The closing Exhibition of Albert Collins will occur on Wednesday evening next, 2nd April. The music will be under the charge of Prof. Stanfield.

On the solicitation of Sergeant McDonald, three residents of the city obtained refreshments at the police station last night, and four troops kept company with them.

BEHIND BEATY, W. Gordon and M. McDougall, drunkards, were discharged in the Police Court this morning. Ad. McFadden and Vanhook acted as the dispensers of justice.

The boys Sours and McKay, who ran away from the Institution for the Deaf and Dumb on Tuesday last, returned about this evening. They are quite satisfied with their experience as truants and have no desire to go away again.

Mr. James Healey's dog "Tessie" won the first prize, as usual, in the black and tan trials, which took place at the Toronto dog show. The special prize for the best black and tan terrier - a pair of statuettes valued at \$10, presented by Messrs. H. A. Nelson & Son, was also awarded to "Tessie". Mr. Healey's dog is the finest of his kind in America - perhaps in the world.

Two Dime Museum entertainment last night was as well patronized as its merits deserved. The programme was a good one and afforded considerable amusement. The specialities of Marion, Wardell, Ryan, Haines, and others, elicited deserved approval and their acts were given in a highly satisfactory and effective manner. The company will appear again to-night in an entire change of programme and will give a masterpiece of entertainment and a performance in the evening.

LADIES, you should all go and see Mr. Doreen's fine styles of Hair Goods, on Tuesday, Wednesday and Thursday, April 2nd, 3rd and 4th. He has Langtry Waves, Water Waves, Laundry Waves, Long Hair, and Switches, Golden Hair, and so on, making your hair of a beautiful golden shade. Hair Ornaments, &c., &c. Be sure and see his goods.

## TEMPERATURE.

As Registered by Prof. Hall's Self-Registering Thermometer.

Maximum 59°; Minimum 34°.

## PERSONAL.

CAVE, NEARLY DEAD, is said to be seriously ill.

STANDARD GILLESPIE, of Pictou, is in the city at the leading court.

Mr. HENRY WATSON, who has been attending the Medical College at Kingston, is here, having been called home by the serious illness of his mother.

Gentlemen.

Do not see Mr. Doreen. If you are paid you should not miss the opportunity of seeing his latest inventions of covers for the partially bald head, also the hair styles in Wigs. They cannot be surpassed. He has held in the houses of gentlemen for years waiting their turn with the greatest satisfaction. He will be at the Dufur House Tuesday, Wednesday, Thursday, April 1st, 2nd and 3rd.

## The Silver King.

The second performance of this drama last night attracted a large audience, and was eminently satisfactory. The first presentation. All the parts were rendered in the most satisfactory manner, and to the list of prominently attractive impersonations we add that of "Tremont," a drunken sot, by Mr. Nannery, which, although but a small part, was so effectively rendered. The children and orchestra were again worthy of commendation.

## Liquor Licenses.

A meeting of the License Commissioners under the Dominion Act was held at the Court House in this city on the 26th, for the purpose of considering applications, which there were about 100. There was a large attendance of applicants, and the public were well represented, the meeting being open to all who chose to attend. Ninety-three of the applications were favorably considered, and six for shop licenses in Trenton and Malaga, were withheld for information as to the census of those places.

## City Assessment.

The City Assessor has completed his labors, as far as Murray, Coleman and Foster Wards are concerned, and expects to finish his work in St. James Ward tomorrow. He has only five houses to go. In his own words he says "a reaction for the better has taken place, as there is not a vacant house in Murray Ward and no good houses are vacant in either Coleman or Foster Wards."

## Court of Chancery.

STAPLEY vs. VERMILION. Reference to Master at Belleville, to take account between all parties. Mr. Northrup counsel for Master. Mr. Diamond solicitor. Mr. Anderson counsel and solicitor for defendant. Verilions. Mr. Barrett for defendant. Bleeker.

MILLER vs. NORTHALE. Action by plaintiff for contribution to a loss upon a cattle speculation in shipping last cattle to Winnipeg in 1883. Judgment for plaintiff for \$737 and costs. Mr. Barrett, counsel for plaintiff. Mr. Diamond, counsel for defendant. Mr. S. S. Wall, counsel for defendant. Mr. S. S. Wall, counsel for defendant.

## DEBT-DOOD.

What is Going on Around and About Us.

A Bicycle Club is being organized in Malaga.

Efforts are being made to organize an election class in Stirling.

The Pictou stage crossed the bay on the Pictou ferry boat on the 25th.

Travelling has been recommenced on the Ontario and Quebec at Norwood.

The lumber gangs are being broken up, and the men are returning from the woods.

On the night of the 24th the streets of Deseronto were successfully lighted by gas produced from sawdust.

It is the intention of the Englishman of Trenton to celebrate the coming St. George's Day in a proper manner.

The body of an infant was found in the harbor at Pictou on the 25th. The police authorities are investigating.

Mr. R. Ferguson, of Dunsmuir, says that Mr. D. McNaughton would, split and piled, four cords of wood in 9 hours.

Mr. Robert Brown, of Lakeside, fell at his own door on Saturday evening last, and had several ribs broken, besides sustaining other injuries.

A son of Capt. Yott is negotiating with the Rathbun Co. to effect a lease of Baker's Island, near Trenton, for the purpose of establishing a large hennery there.

Mr. John Bancroft, of Pictou, has received intelligence from England last week, that an uncle of his had died in New Zealand, and left him by will property valued at about \$25,000.

A rather unusual event in the animal kingdom happened on the farm of Mr. Charles Morrow, Frankford, last short time since, when a cow belonging to that gentleman dropped three calves. Triplets are a decided rarity.

Capt. Wilcox, of Smith's, Falls, has arranged with the Railway Company for the building of a new steamer which, it is intended to ply on the Rideau Canal between Smith's Falls and Kingston three times weekly.

The East River Agricultural and Horticultural Societies intend to hold a joint annual spring show of horses and fat cattle, in Hastings, on the 22nd of April next. Prizes to the amount of \$160 are offered.

A few days ago Rev. Thomas Davis, priest of Malaga, was made the recipient of a costly, handsome and serviceable present from the young men of Malaga, being a beautiful coat, cap, and pair of driving mitts, all of Persian Lamb material. The article was valued at \$125.

## He is Coming to Belleville.

The Ladies and Gentlemen of Belleville are notified through our advertising columns that Mr. Doreen, of the famous Paris Hair Works, 100 Yonge St., Toronto, will be in Belleville again on Tuesday, Wednesday and Thursday, April 2nd, 3rd and 4th, and will have his Show Room at the Dufur House again. He has added many new styles in Hair Goods, and is, as usual, a great success. He is, without a doubt, the leader of fashion in this line in the Dominion. His magnificent stock of hair goods is unsurpassed in quality, his prices are lower than those of inferior goods sold by other houses. Ladies, we advise you, if you want the latest style, or other style, call on Mr. Doreen. Gentlemen, if you have not yet forgotten and call on Mr. Doreen at the Hotel. His Toupes and Wigs are known to be so perfect and natural looking, that it is impossible to detect them as false.

## Buckton's Arctic Sale.

Be best Sale in the world for Coal, Bunker, Ship, and other goods. Buckton's Arctic Sale, 100 Yonge St., Toronto, is a place where you can buy everything you need for your Arctic voyage. It is a place where you can buy everything you need for your Arctic voyage. It is a place where you can buy everything you need for your Arctic voyage.

## Fact Stranger than Fiction.

It is a fact that the House of Representatives, in its session of 1883, passed a bill to amend the act respecting the inspection of gas and gas meters.

An act to amend the act respecting the inspection of gas and gas meters.

An act to amend the act respecting the inspection of gas and gas meters.

## Central Ontario Railway.

In the Railway Committee on the 25th, Mr. Platt moved the consideration of the report of the Central Ontario Railway Commission. He explained that the bill sought for powers to extend the line northward to a junction with the Canadian Pacific railway, and to construct branches to any mines within a convenient distance of its line. The present line was built to the Wellston mines. The promoters of the line were owners of large and valuable mineral deposits and timber lands in the Ontario and Quebec, and they proposed to develop them with the assistance of their line.

Mr. White (Hastings) said the Midland railway had a shorter to build to the north than the Central Ontario, and its line was already built as far north as Edwardsburg, where the two roads could meet. From this point northward the two lines would run almost parallel. It was not likely that both roads would be built, and he thought the Central Ontario line was allowed to be extended to the territory for which the other company had a prior charter, it would be required to consent to a reasonable arrangement for freight from the junction with the Canadian Pacific railway to the end of the Midland system at Edwardsburg. This was but fair to Belleville and vicinity, which had given such heavy business to the Midland branch.

Mr. Cameron (Victoria) said he had more faith in the Central Ontario Company pushing its line northward than in the Midland branch being extended. The large bonus given by Belleville was given to secure connection with Peterborough with the northern districts.

Mr. Mitchell thought every opportunity should be given the Central Ontario Company to extend its line as long as it complied with the conditions of the General Railway Act. Hitherto they had shown commendable enterprise in constructing eighty miles of the road northward from Trenton, without asking for any aid from the Government or the municipalities.

Mr. McCusg, ex-M.P., on being introduced, addressed the committee in support of the bill. He gave a history of the construction of the original Prince Edward County railway, and its extension northward under the name of the Central Ontario line. The parties who now owned the road were almost all strangers who had come into the country with their capital, and they were desirous of carrying out their enterprise.

Mr. Mitchell thought every opportunity should be given the Central Ontario Company to extend its line as long as it complied with the conditions of the General Railway Act. Hitherto they had shown commendable enterprise in constructing eighty miles of the road northward from Trenton, without asking for any aid from the Government or the municipalities.

Mr. Mitchell thought every opportunity should be given the Central Ontario Company to extend its line as long as it complied with the conditions of the General Railway Act. Hitherto they had shown commendable enterprise in constructing eighty miles of the road northward from Trenton, without asking for any aid from the Government or the municipalities.

THE WEB OF LIFE

By J. C.

We stand at the wheel of life and spin, And draw the life-threads to and fro, And the dark and light of blending in, As the day-light and the day-light go.

And our last great thread of the weary thread, And our hands grow tired with the endless toil.

We stand at the loom of life and weave, And our hands grow tired with the endless toil.

We stand at the loom of life and weave, And our hands grow tired with the endless toil.

## SEWED EMBROIDERIES.

A Case of Embroideries for the Spring Trade, Much Cheaper than Last Year's.

## PRINTS.

SEVEN CAGES of Prints, imported before the duty was raised, are now on hand. FACTORY CUTS, STYLISH, and SHEETINGS, in various colors, are also on hand. SHIRTINGS, TICKINGS, and DENIMS, are also on hand. Now is the time to buy your Cotton goods.

## LINENS.

TABLE LINENS, from 20c. per yard. GLASS LINENS, TOWELLINGS, NAPKINS, etc., at low prices.

## BLACK SILK.

See the line of BLACK SILK that we are offering at \$1.10 per yard. It is worth \$1.50 per yard.

## GLASGOW WAREHOUSE.

Belleville, March, 1884.

## Daily Intelligencer.

BELLEVILLE, SATURDAY, MARCH 29, 1884.

## MERCANTILE MENTION.

SKIPPING ropes are in demand.

Tanned hides were made last night.

To-day's market was a very poor one.

The large egg business will soon start up.

CORKING suspended here at a Maud S. sale.

March dust was flying through the streets to-day.

The Hallelujah Band will visit Caution to-morrow.

The crossing on the lake is in many places dangerous.

The Mission School writing class will be started this evening.

The next harbinger of Spring (after the robin) is the organ grinder.

Three drunks were discharged in the Police Court this morning.

Garden seeds are in demand, as the time for planting is near at hand.

Butter sold for 25 cents per lb., to-day and eggs sold at from 16 to 18 cents.

TURNS of it and weep. "Kiss me as I fall asleep" is the title of the latest song.

A SAMPLE of hen fruit that weighed 44 oz. was shown at this office this morning.

REV. J. I. BAKER, M. A., of Toronto, will occupy the pulpit of the Baptist Church to-morrow.

Some water fountains are undergoing renovation. Whittening a rag and muck constitute the bill that fills the pockets.

It is now the correct time to send the small boy into the front yard with a rake, to scrape the surface of the ground.

It is only a matter of a month now when an ironical pupil will sweep over the pockets of the young men. Circuses, base ball and new spring clothes will strike them all at once.

The Dine Show Company played last night to a fair audience and the entertainment was highly enjoyed. The company will appear again to-night in an entire change of programme.

A prize exhibition was given in the house last night. A light cloud belted extended from the southeast to the northwest, the variations of which surprised and delighted all who saw it.

REMEMBER—Richard Irving, Evangelist, is expected to address the gospel meeting in the Bethel Hall on Sunday evening at 7 o'clock, and conduct the Bible class at 3 p. m. All heartily welcome.

The Grammar School of Albert College will give the usual exhibition at the close of the term, next Wednesday evening, half-past seven o'clock. The programme will be musical and literary.

FRANK TAYLOR, the deafening clerk of the Merchants Bank, has been heard from. A telegram was received here, last evening, asking if he was wanted, and Chief McKinnon went after him this morning.

MR. EDWARD GREEN will leave here on Monday with a gang of men for Chisholm's Rapids, in the interest of Mr. Thomas Buck, the lumberman. Mr. Green expects to begin rafting here in about ten days.

GARDEN SEEDS—Market gardeners and others have their attention called to our advertising columns. Messrs. L. W. Yeomans &amp; Co. have made their selection of seeds with great care from reliable sources.

LADIES, you should all go and see Mr. Dornwien's fine series of Hair Goods, on Tuesday, Wednesday and Thursday, April 1st, 2nd and 3rd. He has Laundry Waves, Water Waves, Long Hair, Hair Switches, Golden Hair Wash for making your hair of a beautiful golden shade. Hair Ornaments, etc., etc. Be sure and see his goods.

The Easter festival of the City Mission will be held in the Mission room a week from Monday next, April 15th, at 7:30 p. m. (D. V.). The children have learned recitations, have practiced singing and prepared readings for the occasion. They will be treated with good things. Combs, Admiration free.

## MISSIONARY SERMON by distinguished divines will be held in the Blocker St. Church to-morrow.

After tea should be held in April, and provided that the light and sunlight can be freely entered among the bushes.

It is with pleasure we mention there is a likelihood of our esteemed friend Mr. Burton delivering his lecture in Belleville, on the 24th inst., upon "Waste and Abuse," which was so favorably noticed by our Toronto contemporaries. The many friends of the lecturer will put a red mark in their calendars over the date. The same was also the Literary Society of John St. Church, we understand, invited Mr. Burton to visit the city for this purpose.

## Weather Probabilities.

TORONTO, March 29.—Lakes, fresh to strong northeast to north wind, partly cloudy weather, fair weather Sunday.

## The Troy Laundry.

This establishment is located in the large brick building at the western end of the lower bridge, and is fitted up in a manner that equal that of others in the city. A. E. Fish &amp; Co. are the owners, and they have gone to a great deal of expense in fitting up the place so that it could be made to answer to their requirements. Mr. Fish has made frequent visits to such establishments in the States, and after investigation decided to adopt the best methods in use there. On the ground floor is the boiler room, with a new steam engine, two 1,000 gals. water vats, one for hot and the other for cold water, and a hydraulic washer, which, it is claimed, does its work thoroughly and injures clothes less than hand-washing. There is also an "extractor," which takes the water from the clothes, and is a substitute for the old-fashioned wringer. This machine was purchased at Troy, N. Y., and is an ingenious piece of machinery. On the second floor is the steam drying room, containing eight closets, which run on pulleys, and a collar and cuff ironing machine, which is heated by gas. Adjoining is a large room which is used in the manufacture of shirts, and several sewing machines will be used there, and all will be run by steam. The premises are large, well lighted and admirably adapted for the purposes intended. The factory and laundry will be in operation next week.

## BURGLARIES.

At an early hour this morning, the residence of Mr. Philip Hart, on Everett St. was visited by burglars, who took his books and papers into the back yard and after inspecting them, threw them away. They secured a silver watch, but passed over a clock for \$27.

Some party also entered the residence of Alvin Frederick, but when he entered the room of Mrs. F. was frightened away and got nothing.

Mrs. Clara W. Bell, whose husband is away from home, was astonished this morning upon going down stairs, to find that the house had been entered during the night by burglars, but as far as she can judge they were unsuccessful in securing any plunder. Upon examination it was found that the burglars had taken off the outside window of the double bay window of the dining room, after which they had bored holes in the inside window, and after breaking up a square hole access to the house was made easy.

Mr. Bell's desk, which was locked, was found broken open, the side board drawers were open, and when they were unlocked a thorough search having been made, as the burglars could be tracked all over the house, even to the head of the stairs, by the burnt matches which they had left behind them. As Mr. Bell, before leaving, had placed his papers and silver in the side board drawers, the burglars were unsuccessful in securing anything of value, except a couple of bottles of ale, over which they do not doubt make as merry as could be expected under the circumstances. As to one in the house heard any noise, it is impossible to say at what hour the burglary was committed, and as yet no clue to the burglars has been found.

## PERSONAL.

MR. HOBSON, of Montreal, is in town.

MR. F. SMITH, of Montreal, has been appointed Steward of the steamer Acadia.

The resignation of Second Lieut. Wm. Hume (Milton), of the 10th Batt. has been received.

REV. M. W. McLEAN is convener of the Home Mission Committee of the Ontario Presbytery.

JES. J. K. HALL, M. A., of Montreal, is now located at Grant Park, Ill.

HON. JOHN STENSON, co-speaker of the Ontario Legislature, is ill with congestion of the lungs.

MR. JOHN NICHOLSON returned from Montreal this morning, after having made a satisfactory sale of his horses.

MR. J. F. REID, of this city, on Mr. J. A. Reid, Deputy Postmaster, has been awarded the gold medal for proficiency in his class in the Veterinary College, Toronto. We congratulate our young friend on his success.

Answer the graduates of the Ontario Veterinary College—Messrs. G. Butler, Stirling; Ed. Ming, Belleville; J. E. Reid, Belleville; and others in Montreal and Kingston.

JES. J. K. HALL, M. A., of Montreal, is now located at Grant Park, Ill.

HON. JOHN STENSON, co-speaker of the Ontario Legislature, is ill with congestion of the lungs.

MR. JOHN NICHOLSON returned from Montreal this morning, after having made a satisfactory sale of his horses.

## First Forty Years Ago.

A Party of April 1844, 40 years ago.

On the 1st of April 1844, 40 years ago, a party of forty persons, mostly from Kingston, were on board a small boat, and a number of passengers. The party was composed of several by-ports and remained in Kingston, at that time the village of Hall's Cove, all night. The boat was driven by a single sail, and the party was not encountered on the trip, and the steamer reached Kingston about noon on the 2nd.

On the 3rd the return journey was begun, and all went well. The Big Bay was reached, when the *Prince Edward* was obliged to anchor, owing to the prevalence of a heavy snow storm. The boat arrived here the next morning.

These were the palmy days of Captain Benter, and everything he touched melted into money; afterwards the melting process was in the opposite direction. The trip was occasioned in this way: Captain Benter had, during the winter, sailed a boat that he would leave the harbor of Belleville with his boat on the 1st of April that year, and the elements proved to be in his favor.

Those who composed the band were as follows: Aaron Dune, leader, who died in 1864; Bartley McEvoy, who is now living in Grand Rapids, Mich. (both of the above played clarinets); John and Henry Northrup, uncles of Mr. A. G. Northrup, of this city (the first named is dead and Henry is living in Iowa). The latter played a key bugle and John a washington.

On the second floor is the steam drying room, containing eight closets, which run on pulleys, and a collar and cuff ironing machine, which is heated by gas. Adjoining is a large room which is used in the manufacture of shirts, and several sewing machines will be used there, and all will be run by steam. The premises are large, well lighted and admirably adapted for the purposes intended. The factory and laundry will be in operation next week.

## EXPLOSION.

Accident at Corby's Distillery.

Mr. Henry Corby was telephoned for this morning at four o'clock to visit his distillery, as the water had flooded the cellars in his mill, and a millwright was also required. He responded at once and arrived at eight o'clock, and everything then being in a satisfactory shape, the machinery had just started up when he left and he fancied that the trouble was over. It is his misfortune that the truth of the matter is that "misfortunes never come singly" was verified.

The foreman of the distillery had gone to breakfast and the rectifier had charged the kettle. The valve of the top must have got clogged or fouled and did not close when the steam was put on.

When the spirit started to boil, instead of passing through the column and into the goose and condenser in the usual way, it escaped through the defect in the valve. The fireman detected the smell of spirits and sent for the foreman. The latter entered one door of the kettle room and the foreman another. The opening of the door created a draft, and the spirit was drawn towards the boiler and became ignited by coming in contact with the red hot door of the end of the boiler. An explosion followed, and the foreman, Mr. W. R. Taylor, was thrown about ten feet through the door into the furnishing room, with clothing on fire. The foreman, Alex. Bradshaw, passed through the flame in the kettle room and seized Mr. Taylor and carried him to a vat. There was no further "boil" in the vat to cover him, and Mr. Taylor lay down in it to cool himself. After that Mr. Taylor went home. Two physicians, Drs. Wilson and Gibson, attended them. It was found that Mr. Taylor was badly burned about the face, neck and hands and the doctors cannot at present say if he is injured internally. Bradshaw is burned about the face, but not so badly as Mr. Taylor. Mr. Moore, the caretaker of the works, attached the fire hose and put out the fire. The damage has not been ascertained.

## Death of Rev. W. W. Ross.

The following despatch will be read with intense sorrow by many of our readers, who were intimately acquainted with Mr. Ross:

TORONTO, March 28.—Rev. W. W. Ross, prominent and one of the most popular ministers of the C. M. S. Church here, died today. Mr. Ross has resided in Kingston for nearly twenty years, and was a person respected by all classes and loved by his congregation. He leaves a wife and four children.

Daniel Ross, Esq., of Malton. When quite a lad he came to Belleville and learnt the book business with the late E. W. Holton, Esq. While in his employment he was converted and shortly afterwards was called by the Belleville Methodist Church to the work of a Local Preacher, and then was recommended for the Ministry. He has since filled some of the most important circles in the Toronto and London Societies. He was a person of great force more than ordinary ability, and wherever he was stationed was universally beloved.

We extend to the many bereaved friends our sympathy in this unexpected death.

## Sol Smith Russell in "Edgewood Folks."

"Edgewood Folks" is a play which has many elements of popular success, and in the hands of the present company cannot fail to draw large houses. It is full of touches of the comic side of human nature, and satirizes the gentility of the average novel as well as of many other romantic nonsense. In *Tom Dillworthy*, which is an eccentric individual who makes himself up his head with everybody, singing songs and playing all kinds of pranks. Mr. Sol Smith Russell has a part admirably adapted for his special line of acting, his character delineation being almost perfect as his rapid changes were wonderful.

Address **DR. LOWRY'S REMEDIES**, No. 126 Lexington Avenue, New York.

## Daily Intelligencer.

Ontario, Feb. 23, 1884.

**Winter is over, and the exodus of young men who intend, even without sufficient reason, to follow Herod's Greed and "go west" in search of a milder climate, will soon commence. The West does not possess the advantages of our own land, and a good land could hardly be asked for, when the rapid influx of population for miles around is so profitable a market for all the farmers could produce. But the reputation of the Western States is a mere survival, and the common idea that the Western States have milder winters than our own, is a mere survival, and the common idea that the Western States have milder winters than our own, is a mere survival.**

We have before us the last report of the American Signal Service—the report for January last—and it is full of interesting facts. It tells us that the average temperature of the month of January last was 31° below zero, and that the average temperature of the month of February last was 21° below zero. This is a very low temperature for the month of January, and it is a very low temperature for the month of February.
